

LEUKEMIA &
LYMPHOMA
SOCIETY®

**MAN & WOMAN
OF THE YEAR®**

Happy Thursday Family and Friends!

Just a reminder that the jumpstart challenge is still on! Have you made your donation to help cure blood cancers yet?

Please use this link to make a donation to the Leukemia & Lymphoma Society now: <https://pages.lls.org/mwoy/calso/los21/clewis>

I also invite you to learn more about LLS' groundbreaking **Children's Initiative** that has found its own soft spot in my little healing heart. Please watch this short and inspiring video for more context:

[The Breyfogle Family's Story](#)

Through the Children's Initiative, LLS is committed to investing \$100M into fighting pediatric cancers. Approximately, 80% of childhood cancer survivors develop one or more chronic health conditions as a result of their treatment, and in the last 40 years, only 4 oncology drugs have been approved for first use in children. By LLS standards – this is unacceptable, and LLS is disrupting the status quo with their bold vision for young patients – to not only survive their cancer but thrive in their lives after treatment.

While many children survive ALL (acute lymphoblastic leukemia), the most common type of pediatric blood cancer, the treatments are harsh and outdated. The long-term effects of current therapies can create severe life-threatening complications. Survival rates for children with other high-risk types of leukemia, such as AML (acute myeloid leukemia) like Kendall, are very poor. That's why LLS is increasing investment in pediatric research.

Making a donation to the Leukemia & Lymphoma Society makes a big difference in a family's fight against cancer. LLS is a top rated charity (the highest rating a charity organization can receive) and your donation is 100% tax deductible.

Thank you for your generosity and support!

Sending with love and light,
Casey Lewis
